

BWPS WEEKLY NEWS

BANKSTOWN WEST PUBLIC SCHOOL

Messages from Mrs Benson:

SPELLATHON

Thank you to the many children who have handed in their Spellathon donation. Please note that money is due by Friday, 27th June.

This is our major money raiser for the school, and we will use the funds to purchase technology, library books and additional equipment for use by the children in the playground and at sport. Children from each class who raise the most money also receive a prize.

REPORTS

Over the past term all class teachers have been busy assessing children and then using this evidence, as well as their consistent teacher judgment, to write the reports. This term's report includes a general comment which is a reflection of children's progress in general, application, interpersonal and social skills and important personal qualities such as kindness and compassion. I have enjoyed reading the reports and think these general comments demonstrate the important connection between a child and his/her teacher as well as how well our teachers know your child. I know, from personal experience, these reports take a long time, with teachers taking due time, care and consideration over every child's report. I look forward to your feedback.

STUDENT VOICE

It has been wonderful to see the soccer fields used more equitably between the girls and boys. Following a school captain meeting between myself, Mrs Williams and the captains, we have followed through with the children's suggestion and modified the playground on Fridays. This has then flowed through to Mondays-Thursday. It has been wonderful to see both boys and girls participating so actively in games with their friends.
