STUDENT

LEADERSHIP POLICY

Student Leadership Policy

1. Context:

School life provides many opportunities for young people to develop leadership skills. Through daily interactions with peers and teachers, shared responsibilities and by contributing to decision making forums, students at Bankstown West Public School have the opportunity to become part of the school governance.

Formal student leadership and student representation programs provide important benefits for individual students and our school. Student leaders have the potential to influence the school environment and the behaviour of their fellow students by becoming advocates for positive change in the school community.

Students who actively participate in school life and feel that they are encouraged to share their ideas and opinions, feel respected and want to make further contributions to the school.

2. Policy Statement:

The aim of this policy is to ensure that all students have the opportunity to build leadership skills through equitable programs that reflect the core values taught at Bankstown West Public School, those being; respectful, responsible and successful.

At Bankstown West Public School we encourage and provide a variety of ways for our students to become involved as leaders within the school setting. Our leadership program is a reflection of our values as a school. The school encourages these leadership roles to be spread amongst the student body. It is important that students prioritise which role is better suited to them. The roles may include but are not limited to:-

- School Captains and School Ambassador (Year 6)
- SRC members (Year 1 to Year 5)
- House Sports Captains (Year 5 and Year 6)
- Playground / Canteen Monitors (Year 5 and Year 6)

3. Rationale:

At Bankstown West Public School we will:

- maximise student participation in decision making and ensure that students apply leadership skills to initiatives that strengthen the school community and the communities in which they live
- establish clear guidelines and expectations of student leaders, in regards to rights and responsibilities and behaviours
- initiate educational programs based around developing communication skills, confidence, and leadership that actively promote and strengthen the corporate life of the school through the Berry Street Program
- establish high expectations and promote leadership opportunities to all students
- provide fair access and participation for all students including equal participation for boys and girls where possible
- encourage students to differentiate between student participation, student leadership and popularity
- encourage more experienced student leaders to support those who are less experienced.

4. Leadership Skills Overview:

Leadership skills are qualities that a person needs to have to be an effective leader. The main characteristics of a leader are responsibility, confidence, respect, organisation and public speaking.

Confidence

One of the most important leadership skills is confidence. A leader must have confidence, so they can speak in public and represent their school in the community.

Organisation

As a leader, you will need to be ready to take on extra responsibilities. You will be relied upon by others to get jobs done and require high level organisation skills.

Responsibility

Being responsible means being accountable for your actions. It involves making decisions and taking action, rather than waiting to be told what to do.

Respect

A big part of being a school leader is to respect others. It is important to listen to what your peers and teachers have to say. You should utilise what you have learnt in all of the teacher led Personal Health and Development lessons.

Public Speaking

Public Speaking is a skill and a quality that every leader should develop strength in. Leaders will be required to speak with confidence, clarity and enthusiasm. You will normally do most of your public speaking at assemblies in front of the whole school and out in the school community.
